

.1SUTTON LOCK SIMPLIFIED ACCESS TIMETABLE FOR INNER GATES

22nd April To 17th May 2024 (Revision 7)

22.04.2024

KEY:

	Lock Fully Operational
	Full Free Flow Access (Only one operational gate)
	Restricted Free Flow Access (Diving Operations & Only one operational Gate)
	No Access (24 Hour diving operations/curing operations)

NOTES:

- The below timetable is to be used as guidance only and as a simple visual representation.
- The below timetable and colour coding follows the latest request of a minimum of 1 hour at the start and end of each free flow period wherever possible.
- Where there are no restrictions (green) works may still be being carried out, but the lock will be fully operational.
- The timetable is subject to daily change and overall movement depending on weather and risks.
- Atmospheric pressures may affect lock access timings but not durations.
- *Dates with Asterix denote potential flood risk so the outer gates maybe closed up to an hour either side of High Water
